UPDATE YOUR SABITA MANUALS AND DVDs

To keep the bituminous products sector abreast of developments in technology, Sabita has updated a number of its products over the past few years. Practitioners are urged to ensure that they have the latest copies of manuals and DVDs as detailed below. Note that the ✓ symbol indicates that a pdf copy is downloadable free of charge from the Sabita web site.

Updated

Manual 2	<i>Bituminous products for road construction and maintenance (2007)</i>	✓
Manual 5	<i>Guidelines for the manufacture and construction of hot mix asphalt (2008)</i>	✓
