

**TO ALL SABITA AUTHORISED REPRESENTATIVES**

12 January 2009

Dear Member

**TECHNICAL GUIDELINE 3 (TG3) AND CAPSA DVDs**

Please find enclosed a complimentary copy of *Technical Guideline #3: Asphalt reinforcement for road construction* and a set of *CAPSA'07 DVDs* for your use. Additional copies of TG3 can be ordered from Sabita @ R300 (Non-members pay R450) and the CAPSA'07 DVDs can be ordered from the Asphalt Academy ([www.asphaltacademy.co.za](http://www.asphaltacademy.co.za)).

TG3 was developed by the Road Pavement Forum working group as a code of practice for the reinforcement of asphalt. The guideline covers all types of materials used as inter layers and is primarily targeted at consulting engineers and contractors who are involved in the maintenance of asphalt pavements. The guideline is a synthesis of best practice on the use of asphalt reinforcement products based on local and international experience. It has been laid out in a very functional and colourful format making it easy to use by all levels of practitioners.

The DVDs provide visual coverage of both the presenters and their power point presentations which can be viewed simultaneously on your computer screen. The DVDs covers the four plenary sessions held at CAPSA'07 on Structural Design, Hot Mix Asphalt, Surfacing Seals and Bitumen Stabilisation. The DVDs are an excellent training tool for industry practitioners by bringing them up to speed on the latest state-of-the-art practices in flexible pavement engineering for southern Africa.

We trust that you will find the time to peruse these items and put them to valuable use in your organisation.

Yours faithfully

**Trevor Distin**
